Collide

The Rosemarys

Like a spotlight that breaks into the darkness
Like an arrow that's racing to it's target
I got you in my sight, I am fixed on you
And I can feel you calling, lookin' for me too
Nothing's gonna' stop me 'cause I'm on a mission
I'm gettin' ready for a demolition
Collide, crash into me
(Collide)
Collide, I want to be
(Collide)
Broken by you and made brand new
Collide
(Collide)
In the aftermath of your hurricane
It won't be what I lost but what I stand to gain
So bring your storm to me 'cause I know when it's through
The clouds will roll away as sky will turn to blue
Nothing's gonna' stop me I know what I'm doin'
Make somethin' beautiful from out of the ruins

Collide, crash into me
(Collide)
Collide, I want to be
(Collide)
Broken by you and made brand new
Rearrange me
Only you can save me
Collide, crash into me
(Collide)
Collide, I want to be
(Collide)
Broken by you and made brand new
Collide, crash into me
(Collide)
Collide, I want to be
(Collide)
Broken by you and made brand new
Collide, collide, collide, collide
(Collide, collide, collide)
