# Save Your Kisses

## Sandrine

Save your kisses
For a lonely night
Save your wishes
For I'll be leaving
Pack all your laughter away
To keep for that day
When you could be weeping
Take a photo of us like this
It will live on with or without us
Say what you needed to say
For that special day
When you find your true loveIt's beautiful
It's wonderful
It hurts to breathe
It's so sweet
It's Sunday nights
And birds in flight
It's whistleing in the street
It's all you'll ever needSave your offer
For another time
When you know that you really mean it
Don't waste your moment on me
For we gamble it seems
For what we are needing isIt's beautiful
It's wonderful
It hurts to breathe
It's so sweet
It's sunday nights
And birds in flight
It's whistling in the street
It's all you'll ever need
Don't waste your moment on me
Wait till you deeply can feel it
If you are patient your time
It will come
Bubbling up from within you
