In The Club

Danny Saucedo

"It's Friday night
I barely made it through this week
I text my friends, put on my favorite song on repeateThe time is ticking', let's get wicked gotta hit the street
- hit the street
- uh oh uh
There's no need to worry 'cause we're always on the listIn the club
In the club
In the club
In the club
In the club - oh oh
In the club - oh oh
In the club - oh oh
In the club - oh ohThe lights are low
Girls are frontin' everywhere we go go go
uh uh uhBottles up
The beat is droppin' as we hit the floor
Uh uh uhEverybody's goin' crazy
Screaming out for more...In the club - oh oh
In the club - oh oh
In the club - oh oh
In the club - oh ohAin't no place in this world where I would ratter be
Than here with you and rock this club
- that's my philosophyYou and I
Through the night
In the club
In the club
In the clubAlright alright so let me get a second now
To clear my head from everything
That's spinning round'n round
I've seen you checking me out
Don't be stranger please come around
Tell me about ya, where are you from
I love to get to know ya, in this club"
