Waiting For You

Ben Harper

Ive been waiting for you
Ive been waiting for you
Never found anything else to do
But waiting for youIve been calling your name
Ive been calling your name
Never found anything else to say
Nothing to sayYou can kill a lot of time
If you really wanna put your mind to it
Leave it all behind
If you never want to go through itI keep hearing your name
I keep hearing your name
Nothing else sounds the same
As hearing your nameYou can kill a lot of time
If you really put your mind to it
Or leave it all behind
And never ever go through itI keep hoping for you
Keep hoping for you
What else can I do
But keep hoping for you?You can kill a lot of time
If you really wanna put your mind to it
Or leave it all behind
And never really have to go through it
We can kill a lot of time
And never really have to go through itWhat else can I do
But keep waiting for you?
