Everything Happens To Me

Ed Blackwell Trio

I make a date for golf
And you can bet your life it rains
My flat warming got started
But the btch next door complainedIt seems ill spend my whole life
Catching colds and missing trainsI waited in the rain
For a blind date who never showed
Then a 4x4 drenched my jeans as I tried to cross the road
Got back to the car in time to watch it being towed
Everything haoppens to meAt first I thought you might break this jinx for me
Youi love would bring an end to my despair
That would have been so cool
Not how its meant to be
Instead you vanished into thin airIve emailed and ive phoned
Sent a text meassge or two
You told me to piss off and for that respect is due
I fell in love just once
Did it have to be with you?
