Caught a Lite Sneeze

Evans Blue

Caught a light sneeze
Caught a light breeze
Caught a lightweight
A lightning seedYou're on my left side
You're on my right side
I'm in the middle
And you're not hereI need a big loan from a girl zoneBuilding tumbling down
Didn't know our love was so small
Couldn't stand it at all
Mister Saint John just bring your sonThe spire is hot and my cells can't feed
And you still got that belle dragging your foot
I'm hiding it well, Sister Ernestine
But I still got that belle dragging my footBuilding tumbling down
Didn't know our love was so small
Couldn't stand it at all
Mister Saint John just bring your sonRight on time
You get closer and closer
Call my name
There's no way inUse that fame
Rent your wife and kids today
And maybe she will
And maybe she willCaught a light sneeze
Dreamed a little dream
Made my own
Pretty hate machineYou're on my left side
You're on my right side
I'm in the middle
And you're not hereBoys in their dresses
And you're not here
I need a big loan from a girl zoneBuilding tumbling down
Didn't know our love was so small
Couldn't stand it at all
Mister Saint John just bring your son
