Visualize

Mr. Complex

Sometimes we must live through darkness
In order to see the light,
We must visualize.
Chorus
Close your eyes.
Visualize.
The most beautiful girl there could be.
Just one sign.
Mesmorize.
It's like gazing right into the sea.*
Floating down the street
She stands out like a candlelight.
When I look in her eyes,
I know not having sight**
Couldn't change this feelin
So I walked towards her
With this vision in my mind**{?}
With a hand on my face
and a smile on hers
I softly say goodnight.
Chorus
I never dreamt of one who possessed
This gift of gold (gift of gold)

She sees beyond through the darkest clouds
She knows my soul
Will she be my girl
Is she of this world?
Will I ever know?
When the time is right
She will be my light**
She is my angel
Chorus
With a touch of the sand
From a far away land
Gazing at perfection
In the palm of my hand
A touch from her face
That far away place

There's no one above her,
Her spirit and grace.
repeat chorus until end
**
Yeah I'm walking through the misty air.
In my mind, my baby is there.
Having you in my life is my only care.
So beautiful that we can dream.
