The Unwritten Law

Piano Magic

Listen to me I've got a warning for you
You've got to learn to take more care
'Cos if you swim in dirty water
Be careful how you dry your hairIn a room within a room
In a hole within a hole
You've got to learn to share your secrets
Or you'll lose your soulI've got the evidence I know you're broke
The unwritten law
Another town, another one-night stand
You know, you broke the lawIt's so hard to hold back
When the fire is in your eyes
A silver dollar in my pocket
I don't like surprisesI've got your souvenir
Is that the price I've got to pay
It ain't been that long
Since the last charadeI've got the evidence I know you're broke
The unwritten law
Another town, another one-night stand
You know, you broke the lawI know you're guilty
But I'm carrying the blame
I took out much more than I put in
And I felt the painIn a dirty little room
With nowhere left to hide
You told the truth with your eyes
But you lied insideI've got the evidence I know you're broke
The unwritten law
Another town, another one-night stand
You know, you broke the lawI've got the evidence I know you're broke
The unwritten law
Another town, another one-night stand
You know, you broke the law
