Spite

SFA

You live in spite, you live in spite
You live in spite, you live in spite calloused heart
I am the bullet shot from your pistol
Pointed in the face of the ones i love
So i blame you tonight
For all the times that you broke me
And now it starts to bring me down
I can feel i'm losing ground
How long till i face you on my own calloused heart
Calloused heart
Calloused heart
You are my pistol, calloused heart
Calloused heart
It won't change
All the damage done
Everything that's come and gone
It will never change
All i want is to break your calloused heart

You live in spite, you live in spite calloused heart
You live in spite, you live in spite calloused heart
You are my pistol, calloused heart
You live in spite, you live in spite calloused heart
And now it starts to bring me down
I can feel i'm losing ground
How long till i face you on my own you live in spite
You live in spite, you live in spite
You live in spite, you live in spite
You are my pistol, you are my pistol
Calloused heart
You live in spite, you live in spite
Calloused heart
You live in spite, you live in spite
You are my pistol you live in spite you live in spite
Calloused heart calloused heart
You live in spite you calloused heart
My calloused heart
