Dynamics

Devin Townsend

[Words and music by Devin Townsend]Winter hides the dead
Just like summer ends too soon
Springing forth the new knowing
Autumn is the tombAnd I'll wait for you
'Cause it's waiting for you
Living hides the dead just like
Suns and earth and moon
Springing forth the new knowing
Flowers need to bloomAnd I'll wait for you
'Cause it's waiting for you
Unsure? Well, here's help with the wait
The heavens move and the earth will quake
And now god has failed and a metaphor
There's only awe forever moreLife is all dynamics
Life is all... dynamics
There's life in all dynamicsLife is all dynamicUnsure? Well, here's help with the weight
There's only "god" for "heaven's" sake
There's only one key to unlock the door
You must get the metaphor
(God help our mother... love one another!)
