Don't Ever Leave Me

Keith Jarrett & Charlie Haden

I was created for one man alone
It wasn't easy to find
Now that I've found him, I wonder just how
I could have lived right up to nowNow I am something completed by you
I am no one, just part of twoDon't ever leave me now that you're here
Here is where you belong
Everything seems so right when you're near
When you're away it's all wrongI'm so dependent when I need comfort
I always run to you
Don't ever leave me cause if you do
I'll have no one to run toI'm so dependent when I need comfort I always run to you
So don't ever leave me cause if you do I'll have no one to run toDon't ever leave me alone.
