Goin' Home Tonight

White Lion

I've been in this hell forever
I don't even know how long
And there were times I thought I never
Would hold you in my arms again
But now that everything is over
And I'm finally out of here
I'll be goin' home tonight and everything will be alright
'Cause when I open up the door you'll be waiting
And you will keep me warm at night and you will make me live again
Yes, I'm going home tonight and you'll be waiting
I know I always will remember
Every word we said that night
And when the morning came I had to go
But baby I didn't wanna say goodbye
As I leave this place behind me
There's a smile on my face

'Cause I'm goin' home tonight and everything will be alright
'Cause when I open up the door you'll be waiting
And you will keep me warm at night and you will make me live again
Yes, I'm going home tonight and you'll be waiting
Yes, I'm goin' home tonight and everything will be alright
'Cause when I open up the door you'll be waiting
And you will keep me warm at night and you will make me live again
Yes, I'm going home tonight and you'll be waiting
Yes, I'm goin' home tonight and everything will be alright
'Cause when I open up the door you'll be waiting
And you will keep me warm at night and you will make me live again
Yes, I'm going home tonight and you'll be waiting
Oh baby, I'm finally comin' home
And tonight I'll be lying in your arms
Yes I'm goin' home tonight and everything will be alright
'Cause when I open up the door you'll be waiting
