

That Hormone Thing

Racer X

I need you, most everyday
I want to in every way
Love that pretty little game you play
Y'all twisted 'round my DNA
Doing that hormone thing Your secrets on every page
My weakness Victoria's expose
Take and shake me, gonna make me pay
Got me spun out on your lingerie
Doing that hormone thing You got me doing it
You got me blue with it
Doing that hormone thing
You got me blue with it
You got me doing it
Doing that hormone thing Can't have you, there isn't a way
Perfection sweet untouchable lay
Feel ya movin' in on my mind
My heart is your most all the time
Doing that hormone thing
