Tell The Truth

Hot Rod Circuit

I had to hear about it from a friend of mine
You took your precious time
I know it's hard but you didn't even try
And you can't hide foreverDo you think about it is it on your mind
You fucked yourself this time
I know it's hard but it's not really a crime
And I can't hold a grudge foreverI want you to somehow tell the truth
And I want to somehow forgive you
Before it slips awayAnd I've found there's an emptiness in me
Turn this bottle down
I think it's time to set it down
