Trouble Is

Sierra Swan

You have no remorse
Destruction excites you
And you still ride on class
And never look behind youDon't you ever wonder why
You take all the blame
And don't you ever wonder why
You go insaneI'm so disrupted, I'll never love you
I know what I should doThe trouble is, I still miss you
You're still inside my head
The trouble is, you're still with me
But miles away again, againI have no regrets
That I've liked you
And I said I'll forget
But in the end I could not doHave you ever wondered why
I remain
And have you ever wondered why
I go insaneThe trouble is, I still miss you
You're still inside my head
The trouble is, you're still with me
But miles away again, againThe trouble is, the trouble is this
You're still inside my head
The trouble is, you're still with me
But miles away
