Anemone

Dark Suns

In this mist my head sleeps
Twilight be my torch
Burn a hole in these hungry eyes
And next to me diamonds in your mouth
Make the secrets easy
The restless flame
The restless flame
The restless flame
I'm your jewel, be honored to
It's a luckless game and a loveless fortune
You burn away the white sun, gone
I've predicted this
Now the secret's on you
The restless flame
The restless flame
The restless flame, Anemone
Cling on to this, Anemone
Give it everything, Anemone
This pyramid place calls
To a tiny array
A kind of nothing
A kind of nothing
The restless flame
The restless flame
The restless flame
The restless flame
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
Oh wo oh ah oh
