Biggest Mistake

Javier

What happened to the way we were
We be fighting and yelling things
And we can't seem to get it back together
Pride gets the best of meI said, Oh, I ain't even called you in days
And oh, I miss you but I'm playing the game
I need to check myself before I throw it away
Stand up and be a real man?Girl, I know, I got a good thing
And I know, that you're my everything
So you'll always be all I need
Girl, nothing means more to meI can try to find someone that's more special
But I'd search all my life for someone 'cause they're no one like my angel
And God knows that I'd be a fool if I ever let you go
That would be the biggest mistake of my lifeSometimes I go and pick a fight
That's how I get out at night
How could I think that our love would last forever
When we don't even spend any time together?I finally understand the pain
And I knew, I'd never ever do it again
'cause I've come to learn how perfect you are
Now I'm gonna be a real manGirl, I know, I got a good thing
And I know, that you're my everything
So you'll always be all I need
Girl, nothing means more to meI can try to find someone that's more special
But I'd search all my life for someone 'cause they're no one like my angel
And God knows that I'd be a fool if I ever let you go
That would be the biggest mistake of my lifeI finally realized, that my heart can't take the thought of losing you
You can see it in my eyes, there's that, to be without you
Would be the biggest mistake of my life, of my lifeI can try to find someone that's more special
But I'd search all my life for someone 'cause they're no one like my angel
And God knows that I'd be a fool if I ever let you go
That would be the biggest mistake of my lifeI can try to find someone that's more special
But I'd search all my life for someone 'cause they're no one like my angel
And God knows that I'd be a fool if I ever let you go
