Haven't Slept In Years

Matthew Good Band

Make me your animal
Make me your freak and I will pack them in
It's understandable
After all you're only humanAll this time it's been killing me
All this time it's been caving in my head
Killing me, alive, alive, alive
You're deadHaven't slept in years
Haven't talked to anybody else
Haven't slept in years
Haven't talked to anybody else
Anybody else, anybody else, anybody elseMake me your cannibal
Make me your product
And I will make you rich
Well it's still fashionable, isn't it, isn't it, isn't it?All this time it's been killing you
All this time it's been caving in your head
Killing you, alive, alive, alive
You're deadHaven't slept in years
Haven't talked to anybody else
Haven't slept in years
Haven't talked to anybody else
Anybody else, anybody else, anybody else
