Angels On a Razor

Ed Kowalczyk

(Verse 1)Standing in a daze at the edge of time,
Into the garden a child wanders,
Innocent one what did you find?
Where did you go?
Did you see your face in that dark black night?
Or just a feeling, just an inkling?
Everything is gonna be alright
Some will see, some they will stay blind
But oh some will rise(Chorus)Oh carry on, carry on sweet child
And break on through
You'll never save the world from behind the glass
Just take your time, between the lines sweet child
You'll find the answer,
Balanced on a razor,
You'll be dancing with angels(Verse 2)Standing in a daze at the edge of night
In a world thats needing to stop the bleeding
Stumble through the crowd like a vagrant might
Spreading joy around
Innocent one you taught me well
If only they could, see behind the veil
See the other world(Chorus)(Verse 3)
I know your weary baby
But times like this pass, they go
Just close your eyes and know
That you,
You are the center honey
And everythings drawn to you,
Whatever you know to be true(Verse 4)
Just carry on, carry on sweet child
And break on through you
Never save the world from behind the glass
Just take your time between the lines sweet child
You'll find the answer
You will find it
Balanced on a razor, you'll be dancing with angels
You will find, the silence all around you is alright
