Turquoise Blue

Marc Ford

Hello turquoise blue
Not a day is brand new
Whispered on me, sweet silhouette
Wisdom runs deep in youHello crimson red
Lift your sleepy head
A smile from you can make me new
And raise me from the deadYou spend all your time chasing your tail
Slow down, come round, find your ship and set sail
Before you say goodbye
Promise you'll tryGoodbye cold black night
You suffer in delight
Walking from your shadows, now
There's no more need to fightHello bright white heat
Lay beneath my sheets
A smile from you can make me new
And save me from defeatYou spend all your time chasing your tail
Slow down, come round, find your ship and set sail
Before you say goodbye
Promise you'll tryYou spend all your time chasing your tail
Slow down, come round, find your ship and set sail
Before you say goodbye
Before you say goodbye
Before you say goodbye
Promise you'll try
