Shadow Man

W.A.S.P.

Asleep in black, there's no light in the crack
The crooked fingers for you
No, don't ya dare say a prayer, it's just the nights in your mare
Oh, the long forever you'll doNo mercy, no coming back
No mercy, forever fade to blackOh, where's the God that made you?
Oh, you're superman going down forever to never land
Oh, where's the God you pray forsaken again?
Never knew forever the shadow manOh, free at last with a heart in the black
Forever shadowing you
Don't you swear to the terror that your God never cares
Oh, come on, whatever your doNo mercy, no coming back
No mercy, forever fade to blackOh, where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man, the shadow manOh, where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man[Incomprehensible]Where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow manWhere's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man
