True Love

Vince Gill

Is today my lucky day?
Are you gonna look my way
And see true love?
If you're not sure he holds your heart
Don't let pride keep us apart
You need true love
True love is all I'm after
I long to hear your laughter
Only thing that matters
Is it's true love
It's true love
I hear your voice in every sound
You're never there when I turn around
I need true love
I can't quit and I won't give in
Until you're back in my arms again
We need true love
True love is all I'm after
I long to hear your laughter
Only thing that matters
Is it's true love
It's true love
Well I look at you
You look right through me
I wish that you knew
What your love's done to me
Is today my lucky day?
Are you gonna look my way
And see true love?
Yeah

True love is all I'm after
I long to hear your laughter
Only thing that matters
Is it's true love
It's true love
It's true love
(True love is all I'm after)
It's true love

(True love is all I'm after)
It's true love
(True love is all I'm after)
It's true love
(True love is all I'm after)
Baby, it's true love
(True love is all I'm after)
It's true love
(True love is all I'm after)
Baby, it's true love
(True love is all I'm after)
Your it's true love
(True love is all I'm after)
Baby, it's true love
(True love is all I'm after)
You're, it's true love
(True love is all I'm after)
It's true love
(True love is all I'm after)
No, it's true love
(True love is all I'm after)
Baby, it's true love
(True love is all I'm after)
