

# Caring Breeds the Horror

## Crippled Black Phoenix

they all know no one cares for them  
except the... right on the spot  
sometimes someone will say you can move along  
is time we really move.  
the stranger is shy, it starts to...there's a thing going on ...  
the memory of this man  
would you look away?  
oh, if it was a thing  
maybe you should care for those right next to you  
you start to grow!  
you don't need to hide, you want some.  
you could not see through emotion  
maybe you should care for those right next to you  
it's time to grow!  
you don't need to hide, you want some
