Whatever You Say

C.B. Milton

Hey hey, hey
Whatever you say babe don't you know?
I'm not afraid cause i know just where to go
I'm loving you baby all the time
I know that love will find a place
for you and I
I know I should've called you first but I
couldn't stop myself from driving to you just to see
Your smile it makes me wanna be with you is that alright?
Boy I just cant help myself and that's the reason why
Whatever you say babe don't you know?
I'm not afraid because i know just where to go
I'm loving you baby all the time
I know that love will find a place
for you and I
Well, were driving in my car the music plays

the way you make me feel it's like I'm walking on air
I'll make you believe again that lovers do stay
and every now and then we fight without walking away
Oh baby, you just drive me crazy
forget the world for a while it doesn't matter
near or far, gotta have you in my arms
that is where I'll stay
Whatever you say babe don't you know
I'm not afraid because I know just where to go
I'm loving you babe all the time
I know that love will find a place
for you and I
Baby baby baby baby baby
Ew, baby baby baby. whew
Baby baby baby baby baby
baby baby baby
Ahh oh ahhh, ew hey
