Getting Older

Kevin Hart

Give me time and give me space after all these years here
Survey says we've lost our way
Remember back when we were young
It was easier to love, now we are fallingI don't wanna spend my life running
Scared of what we're becoming
It's never what they told ya
I guess we're getting olderI don't wanna spend my life waiting
Watching while we all keep changing
I guess we're getting older
I guess we're getting olderIt's been so long here trying to mend
The cracks we are falling in
Still they slip from under our feet
And we're falling fast, we're fallingI don't wanna spend my life running
Scared of what we're becoming
It's never what they told ya
I guess we're getting olderI don't wanna spend my life waiting
Watching while we all keep changing
I guess we're getting older
I guess we're getting olderI don't wanna spend my life running
Scared of what we're becoming
I guess we're getting older
I guess we're getting olderI don't wanna spend my life running
Scared of what we're becoming
It's never what they told ya
I guess we're getting olderI don't wanna spend my life waiting
Watching while we all keep changing
I guess we're getting older
I guess we're getting older
