Universal

Scariot

Above the clouds
We flew to heaven
Through the eye of storm
and into to the light
I see you
You're everywhere I go
In everything I do
I dreamed a thousand years

Just to be here where everything is right
Scrape those screamless skies
Defy the limits and fly
I see you
You're everywhere I go
In everything I do
I see you
You're everywhere I go
In everything I do
