Jacksonville

Brandon Flowers

Slow down your mind
Fill the unknown spaces with truth and light
If you can find the time, time seems so slow
Now we're stuck here asking, where did it go?
(And where do we come from?)
And what are we here for?
But there we were looking out some country window
And although we had our problems, we were fine
The sky was blue and the night was all I wanted
Let me be your comet, I will fly
Summertime so sweet
Luxuries of childhood were on our feet
In the sun, sun, sun
Baby, run, run, run
Baby, run, run, run
Baby, run, run, run
Games will be portrayed
But there we were looking out some country window
And although we had our problems, we were fine
The sky was blue and the night was all I wanted
Let me be your comet, I will fly
The sky was blue and the night was all I wanted
Let me be your comet, I will fly
I've been to Jacksonville, I've been to Monterrey
I've felt a mother's love, I've seen the colors change
I've cried a million tears, I've caused a million more
I've been to Jacksonville
There we were looking out some country window
And although we had our problems, we were fine
