

# Alkahol Abuse

## Tha Ynoe

As I swig another bottle till it's hollow feeling drops of whiskey on my lips til my body starts to bobble but waddle, where's the alcohol ? I'm a down it all seeing everything twirl I guess I'm about to fall in the hard gravel this vandal creates a flow I go crazy every time this liquor takes control I'm coming out swinging so just try to duck cause see me I'm the type to be a violent drunk when times are rough I don't like to be stressing, liquors the only cure for my type of depression swiggin rum when the whiskey done either that or I'm drinking Bacardi 151 to drown away the sorrow and drink away the pain but as I do that things still remain the same I ain't done yet lets have a 20 blunt sesh man I'm sick of brew and i ain't even 21 yet

I'm just trying to drink but their telling me to stop

Fuck that shit I'm a take another shot

Take a sip of scotch every last fuckin drop

All day everyday man until my liver rots

So then I start thinking at the bar drinking then I'm like what the fuck where's my martini ? I just realized I need to get my crap handled but I'm already swiggin with the homie Jack Daniels I always knew that I was headed for a dead end, to tell the truth alcohol is my only best friend the ynoe is the only m c that you knew of and fuck chicks there's no such thing as true love , just do drugs this is what my cousin told me as long as you got money you don't need no fuckin homies you know the flow but it doesn't mean you know me though come from a broken home knucklehead with no control it's no luck I'm an alcoholic so what you know what I still drink till I throw up get me another round homie cause that stuff was weak then the bar tenders says I think you've had enough to drink

I'm just trying to drink but their telling me to stop

Fuck that shit I'm a take another shot

Take a sip of scotch every last fuckin drop

All day everyday man until my liver rots

So you better take cover when I'm swinging at you bacardis near me chances are I'm drinking that too drinking that brew got rum give me that too get some vodka yeah I'm was thinking that too, they say I'm killing myself homie but I beg to differ beer is beer wine is fine man but liquors quicker currently that light in the road is getting dimmer sclerosis of the liver choking getting sicker roll it up light it up and then smoke it up if you really think about there's nobody you can trust so try to think stressed out that's why I drink an all day drinker is what I try to be rack another bottle, then you start to swallow crack it when it's hollow like there's no tomorrow look and try to follow Roll them J's up I'm a be straight up man I rather stay drunk what I need today is some more e&j man fuck a chaser I rather drink it straight take my own life but I got no knife I only got a gun stick it to my windpipe I'm going psychotic you can only take enough cock it back BOOM another fool bites the dust

I'm just trying to drink but their telling me to stop

Fuck that shit I'm a take another shot

Take a sip of scotch every last fuckin drop

All day everyday man until my liver rots.... until my liver rots
