Rising Sun

CarboHydroM

I know you don't like it butcha
You fit in like the rising sun
On the holy holy road
Out there on that line
And I know I dreamt of you
But I'm starting to unwind
'Cause I'm in transit here
And I'm coming out to that line
Elevate my life, my prayer
I'm a gonna demonstrate this love
And when I get down in this love affair
I'm a gonna demonstrate this love
Well it was such a long day and
And it ended about an hour ago
I got us some milkshakes
Now let's head off and see the show
I know you don't like it butcha
You fit in like the rising sun
With many more miles to go, yeah
With many more miles to go
Ele-elevate my life my prayer
I'm a gonna demonstrate this love
And when I get down in this love affair
I'm a gonna demonstrate my love
The devil's been tailgating me from

From the dark side of town
But he's just a little guy
He can hardly see over the dashboard but he says
I know you don't like it butcha
Fit in like the rising sun
With many more miles to go, yeah
Many more miles to go
All in a day
You got yours and I got mine
But they don't care to see
That our love is a fortune bright
Ele-elevate my life, my prayer
I'm a gonna demonstrate this love

And when I get down in this love affair
I'm a gonna demonstrate my love
Ele-elevate my life, my prayer
I'm a gonna demonstrate this love
And when I get down in this love affair
I'm a gonna demonstrate my love, my love
You demonstrate my love
Ele-elevate my life, my prayer
I'm a gonna demonstrate this love
And when I get down in this love affair
I'm a gonna demonstrate my love
