Grace Of My Life

Brian Littrell

I lie awake so often at night
With something to read or something to write
In the silence my mind is free
To think of the ways that God has blessed me
It's easy to see
How He's been so kind
Any proof I might need
Is right here by my side
You are the grace of my life
So tender so undeserved
Hard to believe you're my wife
Even harder to put what I feel into words
If I need evidence, God is good
Just looking at you is enough
You are the grace of my life
For you grace my life with your love
Love that is pure so faithful and strong
You forgive me when I do you wrong
I've seen you, yeah, time after time
A picture on earth of love so divine
Oh, I am amazed
For how can it be
That someone like you
Would love someone like me
You are the grace of my life
So tender so undeserved
Hard to believe you're my wife
Even harder to put what I feel into words
If I need evidence, God is good
Just looking at you is enough
You are the grace of my life
For you grace my life with your love
Oh, you are the grace of my life
For you grace my life with your love
