Land of Hope

Innerspace

Sleep, my little one
You can sleep without worries
Life is long
Love is infinite

For a little while
Arm yourself with courage
The flaws will give way
So please child donÂ´t give up

Some people take life as
A never-ending ride in an amusement park
The adventure seems so real
Up and down, round and round

Time will soon be kind for you
ItÂ´s gonna be your chance to discover the world
The moment to understand how
The shadows come and go
