Ordinary People

Van Morrison

Ordinary people just don't comprehend
Ordinary people just don't seem to comprehend
The thing you feel they don't even know aboutCut yourself, that never did you no good
You cut yourself, that never did you no good
Nobody watching you
You gotta take care of yourself, real thingWhen I came down your avenue
Blew you every, blew you every which way
When I came down your avenue, blew you ever which way
Nobody watching you, you gotta take care of yourselfOrdinary people, oh, they just don't seem to comprehend
No, they don't
Oh, ordinary, every day people just don't
Just don't seem to comprehend, no, they don't
