If It's Meant To Last

Sheena Easton

Don't matter baby what you might say
Nothing will change just by running away
We can't escape that's a natural fact
Act casual but there's no turning backYou fell for me as fast as I'm falling for you
The pressure's on to make the appropriate moves
But I don't move that fastBring out the wine if you have to
Throw me some lines to impress me
But take your time if it's meant to lastTurn out the lights if you want to
Hold me so tight that I can't breathe
Then say goodnight if it's meant to lastYou know it's better takin' it slow
We'll get acquainted and see if it grows
Money can't buy what experience bringsYou know the truth is I just like having a crush
Nothing around can give me the same kind of rush
But don't you move so fastBring out the wine if you have to
Throw me some lines to impress me
But take your time if it's meant to lastTurn out the lights if you want to
Hold me so tight that I can't breathe
Then say goodnight if it's meant to lastDon't if feel so good together
It shouldn't be that hard
If it's gonna last forever
Don't push it too far too far too farBring out the wine if you have to
Throw me some lines to impress me
But take your time if it's meant to lastTurn out the lights if you want to
Hold me so tight that I can't breathe
Then say goodnight if it's meant to last
