# Rush

## Dean Geyer

We'll rune, we"l dance, we'll fly.
This is our time.
We'll stay all day, all night.
Side by side.C'mon, we're gone.
So put your hand in mine.
Pushing on towards the sun.
let's come undone.I get such a rush.
It's almost to much.
Locked into a moment in frozen time.
I get such a rush.
All i feel is love.
I want your universe to collide with mine.Just take a look around.
There's only now.
We can't go back.
It's lost but look at what we found.We're here inside the fire.
We're burning bright.
Perfect and forever young.
Let's come undoneI get such a rush.
It's almost to much.
Locked into a moment in frozen time.
I get such a rush.
All i feel is love.
I want your universe to collide with mine.Lit it go.
Let it go baby.
Here we go.
Here we go baby.
Let it go.
Let it all come undone.I get such a rush.
It's almost to much.
Locked into a moment in frozen time.
I get such a rush.
All i feel is love.
I want your universe to collide with mine.Here we go baby.
