

Whiskey And You

Tim McGraw

On a lover's leap with a freeway view
Sittin' on my hood
Thinkin' bout you
Going over in my mind
Every kiss and every fight
Yeah the fool on the hill
Is leading down another night There were days so hard
I thought I had to go
I'd get in my car
And just follow the road
But this is my home
And it's who I am
And I know I'd stay
If I could make this old town new again Color other than blue again
I'd have something to do again
Instead of thinking about you again
But the people I know
The places I go
Remind me of you
Oh, won't somebody come around
And make this old town new There were nights so long
I thought the sun burned out
And there were girls so wrong
I don't want to talk about
I was burning up the night
Yeah, in an alcohol flame
Lightin' up my way
Trying to make this old town new again Color other than blue again
I'd have something to do again
Instead of thinkin' about you again
But the people I know
The places I go
Remind me of you
Won't somebody come around
And make this old town new But the people I know and
The places I go
Remind me of you Love goes wrong but life goes on
And I know what I gotta do
I'm just hangin' around

Tryin' to make this old town new
