## Whiskey And You

## **Tim McGraw**

On a lover's leap with a freeway view

Sittin' on my hood

Thinkin' bout you

Going over in my mind

Every kiss and every fight

Yeah the fool on the hill

Is leading down another nightThere were days so hard

I thought I had to go

I'd get in my car

And just follow the road

But this is my home

And it's who I am

And I know I'd stay

If I could make this old town new againColor other than blue again

I'd have something to do again

Instead of thinking about you again

But the people I know

The places I go

Remind me of you

Oh, won't somebody come around

And make this old town newThere were nights so long

I thought the sun burned out

And there were girls so wrong

I don't want to talk about

I was burning up the night

Yeah, in an alcohol flame

Lightin' up my way

Trying to make this old town new againColor other than blue again

I'd have something to do again

Instead of thinkin' about you again

But the people I know

The places I go

Remind me of you

Won't somebody come around

And make this old town newBut the people I know and

The places I go

Remind me of youLove goes wrong but life goes on

And I know what I gotta do

I'm just hangin' around
