Harbinger

Aerolyn

Comes a time in
Everyone's life
We're paid to feel free
Fall asleep now
Calming leaders
Be who you wanna beWe'll live forever, forever, forever
We'll come together, together, together
We'll live forever
(I don't wanna go now, but I know I've got to) (forever, forever)
We'll come together, together
(For you to remember me) (together)
(In this light)So many changes
Taking places
We need to walk away
With all these reasons
Time and seasons
We need who we would bleed forWe'll live forever, forever, forever
We'll come together, together, together
We'll live forever
(I don't wanna go now, but I know I've got to) (forever, forever)
We'll come together, together
(For you to remember me) (together)
(In this light)Love's pressure
Is just kisses
And what's last's to come andÂ
Look back with a lighter soul
Harbor motion into the great unknownWe'll live together, forever, forever (forever)
We'll live together, together, forever (forever)
We'll live forever,Â
(I don't wanna go now, but I've got to (forever, forever)
(For you to remember me)
(For you to remember me)We'll live together, forever, forever
We'll live together, together, forever
We'll live forever, forever, forever
(I don't wanna go now, but I've got to) (forever, forever)
(For you to remember me)
(For you to remember me)
(In this light)
