Top Gun

Top Gun Theme

You finally have destroyed all the good in me
Face to face, there's nothing left inside of me
(Face to face)
A soulless shell, I'm so incomplete
(A soulless shell, I'm incomplete)
This is the last time you will ever
(You will ever)
You will never lie to my faceI have no love inside my heart
Only a knife deep in my backThis shell that I've become is all that's left of me
Thanks to you, you have ignored our history
(Thanks to you)
You left us cold and hungry, surviving week to week
(You left us)
This is the last time you will ever
(You will ever)
You will never lie to my faceTo destroy you would be no great loss
To destroy you would be no great lossI have no love inside my heart
Only a knife deep in my backI have no love inside my heart
(No great loss, no great loss)
Only a knife
(No great loss, no great loss)
