Feel Love

Darren Styles

Sometimes I look into your eyes
Can't help but feel frozen in time
Whether you laugh, whether you cry
Just wanna hold you tonight
You make me feel love
You make me feel love
Just like a fire, keeping me warm
In your embrace, you shelter the storm
Whether it's wrong, whether it's right
Please let me hold you tonight
You make me feel love
You make me feel love
You make me feel love
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
Sometimes we kiss under the sun
Cant find the words, everything's numb
Nothing is wrong, everything's fine
'Cause I'm gonna hold you tonight
You make me feel love
You make me feel love
You make me feel love
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
(I feel love, I feel love)
