Saucer Surfing

Steve Hillage

first we see the greedy, gliming, fighting,
biting, stealing, glider secret ladythen we see the joyful friendly,
humble, wise, devoted working,
golden spirit, light within,
shining angel rising higher
to boost our hope for living in peace and beautythe time is come to melt the hard
world with our love and bring us to
reality the media parrots
and radio aims to help you
a voice comes on the radio to find
strange abilities to trip the whole
realities upon envisioned spacea gleaming, looming, weaving new realities are
harmonizing the world will be dismagnetized
allows the holy travel sequence onwardnow we're reality gypsies, travelling
one to another tonight
we're reality gypsies learning
how to shift the phase of time
we're reality gypsies surfing
on the vibrations with our minds,
we're reality gypsies
the new age starts right now
as you discover, your one of the brothersa traveling man, a traveling lady,
a traveling persongnome: we would like to welcome you
to your inner self, we are going to
book a journey to another part of yourself
that is timeless, spaceless,
part of you've never used before,
this is not a physical space,
but just a set of of organized
vibrations known as music!
