In Your Arms

Silent Force

I start to count the days
When I walk away
From the place we share, it is our home
The strength you have in me appears from time to time
I know you have to guard your heart and soul
I am asking you
Trust in me to see things through
Please don't ever walk awayIn your arms
I will always be
Even though I'm far away from home
In your arms
Only place for me
Tell me that you'll stay forever more: Forever moreWhen I'm many miles from you
I'm a breath away from your heart
You knew it was this way right from the start
I thank from the depths
Deep within my soul
Hours seem so long when we're apartHear me asking you
Trust in us to see things though
Please don't ever walk away
