Lose It

King Jack

Well, it's that time
It's that time again
Oh, it's all coming back around
There she sees me
Oh my god, this is who I've been
And I'm branded each day
Go on and lose it
Go on and lose it all
Go on and lose it
Go on and lose it all
Go on and lose it
Go on and lose it all
Go on and lose it
Go on and lose it all
Immediately we find out then
That I can be blamed for this
But then it just figured out today
And you're so sweet, you say
"Go now and get your own life for living your way"
And I hear you say
Go on and lose it
Go on and lose it all
Go on and lose it
Go on and lose it all
Go on and lose it
Go on and lose it all
Go on and lose it
Go on and lose it all
Well and if we find another then
We will get ours
Well and if we find another then
We will get ours
She's picking up her clothes
She's off and she's running
She says to me
"Go on and lose it"
I think she means well
But man, I can't tell it
She says to me

"Go on and lose it all"
Go on and lose it all
Go on and lose it all
Go on and lose it all
Go on and lose it all
