Enemy Territory

Stuck Mojo

We're globetrotters only smoking guns are hotter
Stick in the Mojo you scream and hollerBetter tap out before we break that collar
Rules out the window like N.W.O.
Imagine this Indian reservation
You trust total annihilation
Scalping that ass from head to toe
Hanging the carcass up after every showAll I see is red
A 90-minute homicidal rageAll I see is read
We enage in acts of rampage.
All I see is red
A 90-minute homicidal rage
All I see is read
We enage in acts of rampage.Take my rage
Go and setup your head (?)
Take my rage
Go and setup your head (?)You're my best friend before we enter the stage
Hear the first note note bust like a 12-gauge.Yo listen we are on a different mission you think we're in.
You think we're a standing competition
Mr. Estate is down with first circle
Break full time and ????????
Step on the ??? for the ???????
Break ya off somethin' like Evander Holyfield!All I see is redA 90-minute homicidal rage
All I see is read
When I enter the stage we enage in acts of rampage.
All I see is red
A 90-minute homicidal rage
All I see is read
We enage in acts of rampage.Take my rage
Go and setup your head (?)
Take my rageGo and setup your head (?)All I see is red
When I enter the stage a 30-minute homicidal rage
All I see is read
When I enter the stage we enage in acts of rampage.All I see is red
All I see is read
30-minute homicidal rageWe enage in acts of rampage.
