

# Sail Into the Sun

## Gentlemen Hall

I'll take the sun and watch it surround you  
all of the rain will fall all around you  
and I, I'll pull you closer when you're floating far away  
and I, don't need no reason we'll just get away  
when we sail into the sun into the sun  
sail into the sun into the sun  
I'll make the clouds a carpet and canopy  
won't touch the ground  
ill stay up here just you and me  
and I, I'll pull you closer when you're floating far away  
and I, don't need no reason we'll just get away  
and we sail into the sun into the sun
