Back To the Future

ProbCause, Gramatik

I went back to the future just to see what we could be
Hopped in my car and drove around the galaxy
It turns out I tripped and fell under your spell
Well, maybe it's chemistry
Hey, what's up today?
Let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy
With all I'm spinning around
Let's go back to the future now
Picked up my phone to see if you were texting me
You said, "Get out of bed, let's take a ride
Inside my time machine" and I said
Hey, what's up today?
Let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy
With all I'm spinning around
Let's go back to the future now
Hey, what's up today?
Let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy
With all I'm spinning around
Let's go back to the future now
Hey, what's up today?

What's up today?
What's up today?
What's up today?
What's up today?
What's up today?
What's up today?
It's been a minute now without you
Wasting my time thinking about you
'Cause time flies but so do I
Come on inside and take a ride back in time
Hey, what's up today?
What's up?
Hey, what's up today?
Let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy

With all I'm spinning around
Let's go back to the future now
Hey, what's up today?
Let's press rewind hop in my time machine
'Cause I'm getting kinda dizzy
With all I'm spinning around
Let's go back to the future now
