

When You're Not Trying To

Reba McEntire

Let me try to explain
It's not the roses or champagne
That really touch my heart
How can I make you see
That you're best at lovin'
When you don't know you are Baby, it's the way that you reach out while you're sleepin'
And gently hold my hand the whole night through
It's how you listen when I'm pouring out my feelings
Baby, when I feel the most from you
Is when you're not tryin' to You don't need to rehearse
Some sweet romantic words
To whisper in my ear
So just forget the poetry
What comes naturally is what I long to hear Baby, it's the way that you reach out while you're sleepin'
And gently hold my hand the whole night through
It's how you listen when I'm pouring out my feelings
Baby, when I feel the most from you
Is when you're not tryin' to It's in your eyes
And in your smile
In the passion of your kiss
It's takin' me in your arms so easily
So effortless It's how you listen when I'm pourin' out my feelings
Baby, when I feel the most from you
Is when you're not tryin' to
