Last Kiss Goodbye

Hinder

It's calming down outside, another lonely night
You said you were just going out with your friends
I'm waiting up this time, I hope you didn't lie
It never used to be like this way back when
I never know where you're at
Another train off the tracks
And I don't wanna live like that, no
When you walked in so damn late
What the hell was I supposed to think
When you've had too much to drink
And you're really looking guilty
When you wouldn't even look at me
There's only one thing it could be
You were with him all this time
Here's one last kiss goodbye
No more alibis, no more little lies
You've broken my trust and it can't be fixed
I should've seen the signs, should've recognized
The way your lips looked like they'd been kissed
How'd we end up like that
Another train off the tracks
It always hurts looking back now
When you walked in so damn late
What the hell was I supposed to think
When you've had too much to drink
And you're really looking guilty
When you wouldn't even look at me
There's only one thing it could be
You were with him all this time
Here's one last kiss goodbye
Another lesson learned in life
And I keep asking myself why
How'd we end up like that
Another train off the tracks
It always hurts looking back now
When you walked in so damn late
What the hell was I supposed to think
When you've had too much to drink
And you're really looking guilty

When you wouldn't even look at me
There's only one thing it could be
You were with him all this time
Here's one last kiss goodbye
When you walked in so damn late
What the hell was I supposed to think
When you've had too much to drink
And you're really looking guilty
When you wouldn't even look at me
There's only one thing it could be
You were with him all this time
Here's one last kiss goodbye
