

# Hot Cherie

## Hardline

Been too long since the last rain  
Still the stars sizzle hot in the sky  
And there, undressed in the shadows  
Stands my sweet Cherie hiding from July

And all night you kept me up, up all night  
Hoping that I could make you mine

Refrain:

You're getting me hot, Cherie  
I want what you've got all over me  
Isn't my love strong enough  
I'm ready to rock you long and rough  
You're getting me hot, Cherie  
I want what you've got all over me  
I'm going crazy

I can't wait for October  
When the breeze from the lake, she's blowing cold  
Well maybe she'll need me for some shelter  
When the campfire dies and the tall tales have been told

And all night I've been working overtime  
Hoping that I could make you mine

Refrain

---
