

I'm Wondering

Dru Hill

Two o'clock and I'm all alone
Callin' you on the phone
Want to come over but you ain't home
Get in my car and start to drive Yes I gotta take a ride
'Cause I feel lonely inside but
Then I ran into your girlfriend
Know she is your best friend And if we mess around our love will end
But I gotta take a sneak peek
'Cause the freak in me is beating me
Telling me to creep see [Chorus]
I'm just wondering if you really know what's goin' on
Do you really have a clue
Bout what I'm gonna do to you, hey
I'm just wondering if you really know what's goin' on Do you really have a clue
Bout what I'm goin' do to you
Now that were here alone
Had to unplug the phone Just in case she calls
Shell think I'm not home
I had something else to do
But now I'm here with you What I had to do has turned into you
She thinks that I'm faithful
'Cause her ride is paid for
And I bought a crib for her and her shorty Forbidden fruit is tasty
But you gotta lace me I'm shady
But you ain't worth my baby [Chorus] [Chorus: x2]
