

Almost Home

Jono Manson

Well, they say that you can never
Never go back home
And if you're bound to wander
You're bound to be alone
You say I got no right
To feel what feel
When I look into your eyes
But that I dream of you
Most every night
Comes as no surprise

Well, I've been Out on this road for so long
Far and wide
Do I roam
But something in your smile tells me
I'm almost home

Well, I've been Out on this road for so long
I was lost in the dark all alone
Till the light
In your eyes showed me
I was almost
Home is where the heart is
And my heart goes with you

I would travel till the end of time
If that's what I have to do
Just to spend one night
Till your sweet love light
Come down
Shining down on me

You say I got no right
To feel what feel
When I look into eyes
But I dream of you
Most every night
Comes as no surprise

Well, I've been Out on this road for so long

Far and wide
Do I roam
But something in your smile tells me
I'm almost home

Well, they say that you can never
Never go back home.
